

Halliburton pumping and cementing unit

Technical specifications

- **Two Caterpillar 3406C DITA deck engines rated at 460 BHP (343 KW)**
- **Two Allison HT-750 Automatic Transmissions**
- **Two Halliburton HT-400 triplex pumps (MWP=11200 psi and total discharge rate of 21.0 bbl/mn)**
- **One Displacement and RCM combined tank**
- **One RCM II mixer (range of mixing rate : 0.14 bbl/mn)**
- **One 4" x 4" Mix Water Centrifugal Pump (700 GPM maximum flow rate)**
- **One 6" x 5" Slurry Recirculating Centrifugal Pump (1100 GPM maximum flow rate)**
- **One 3" Recirculating Slurry Radioactif Densometer**
- **One 2" Pump out Slurry Radioactif Densometer**
- **Kenworth T800, 6 x 4 Chassis**
